

Situation:

Red has hammer and could score a definite 3 if they could get move the yellow #5 and #7 far enough.

Yellow is shooting.

Questions:

What is the best call for yellow?

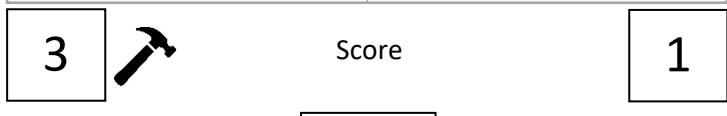

Where is the ideal spot for the yellow stone?

Missing the Right Way:

What if the shot is heavy and comes into the rings?

What if the shot is light and ends up just over the hog line?

What happens if the stone ends up too far left or too far right?
